BuddyU-Team 84

Key achievements in the last week

- This marks the final development of the app which we completed last week
- User testing was successfully implemented and at least 10 people responded to the survey
- The app has all the features we promised to have except the chat.
- Making final changes to the app based on user testing: changing font size, merging the home and settings screen.

Key planned activities for the next week

- Analyse data for the user manuals and decide upon what features to change for the future
- Finish up the status report
- Update the Issues List
- Update the Gantt Chart
- Preparing the presentation

Project Metrics	Status
New Issues/Risks Captured	G
Scheduled Tasks	G
Issues/Risks Resolved	G
Stakeholder Management	G

Overall Status

G

Plan to keep/get project to Green status

- Communication for the final project and practicing each of our slides in a timely fashion so we can finish within 10 minutes
- Finish up the project completion documents and submit them before Tuesday

Key risks / issues / scope changes

- No risks visible after the presentation.
- User testing indicated that a chat feature would be wanted and in the future we can work on creating a chat in the future scope

Date 6/6/17
